Pre-constitutional Era

Before 1787, the United States was governed by the Articles of Confederation, which proved weak because it didn't give the federal government enough power. States had too much independence, leading to problems like economic chaos and difficulty in defending the nation.

The Constitutional Convention

In 1787, representatives from the states gathered in Philadelphia to draft a new constitution. They aimed to create a stronger federal government while protecting states' rights. The result was the U.S. Constitution, which replaced the Articles of Confederation.

Ratification and Adoption

The Constitution was signed on September 17, 1787, and required approval by nine states to

become law. After debate and amendments, it was ratified in 1788 and became effective in 1789.

Amendments and Changes

Since its creation, the U.S. Constitution has been amended 27 times to expand rights, improve governance, and adapt to societal changes.

The Structure of the U.S. Constitution

The Constitution is divided into several parts that organize its content and legal framework.
