World-Building and Mythology Integration

Modern Setting Meets Ancient Myth

Rick Riordan's world is a universe parallel to our own, where gods, monsters, and mythological figures exist secretly among humans. The modern locations, such as NYC, the Empire State Building, and even camp Half-Blood, are reimagined as mythologically infused spaces. Notable elements of the world-building include:

Adjusting screen settings plays a crucial role in reading comfort. Most reading apps allow you to customize font size, font style, line spacing, and background color. Increasing font size and line spacing can reduce eye strain, while using dark mode or sepia backgrounds may improve readability in low-light environments. Adjusting

screen brightness to match ambient lighting further enhances comfort and protects eye health during long reading sessions.
