Each topic is broken down into key points, checklists, and step-by-step approaches, which are invaluable during timed exam stations. The content covers a broad spectrum of surgical topics, including trauma, colorectal, hepatobiliary, endocrine, and vascular cases. This comprehensive coverage ensures that candidates can find relevant material for most station scenarios.

Station-specific Strategies

The guide excels in providing tailored strategies for different station types. For example, it offers detailed frameworks for approaching history-taking stations, including what questions to ask, common pitfalls, and how to structure responses.
