The Origin and Philosophy of Bikram Yoga

Historical Background

Bikram Yoga was developed by Bikram Choudhury, an Indian yoga master who studied in the traditional Indian lineage of yoga. He adapted traditional Hatha yoga into a standardized sequence consisting of 26 postures and 2 breathing exercises, performed in a heated room to maximize physical and mental benefits. The goal was to create a disciplined, structured practice accessible to everyone.

Core Principles

The practice is rooted in the belief that the sequence: - Promotes detoxification through sweating - Improves circulation - Enhances flexibility and strength - Cultivates mental clarity and discipline The precise order and repetition of poses are designed to systematically stretch, strengthen, and align the body while calming the mind.
