1. Foundation of Knowledge: Correct answers reinforce understanding of complex financial concepts, ensuring learners grasp the core principles behind market movements and investment decisions.
2. Exam and Certification Success: Many employers or educational institutions may verify your BMC certification or use sample

questions to assess your knowledge. Accurate answers increase the chance of passing.

Common Questions and How to Approach Them

The BMC course includes a variety of questions designed to test comprehension. Below are typical questions with insights into their correct responses and underlying concepts.

1. What is the primary purpose of a central bank?

Answer: To manage a country's monetary policy, control inflation, stabilize currency, and promote economic growth.

Elaboration: Central banks—such as the Federal Reserve in the U.S.—use tools like interest rate adjustments, open market operations, and reserve requirements to influence liquidity and economic activity.

1. How does inflation impact bond prices?

Answer: Rising inflation generally causes bond prices to fall because future fixed payments lose value, leading to higher yields.

Elaboration: Investors demand higher yields to compensate for inflation risk, which inversely affects bond prices. Understanding this relationship helps in assessing fixed income securities.

1. What distinguishes a stock from a bond?

Answer: Stocks represent ownership in a company, offering voting

rights and dividends, while bonds are debt instruments where the issuer borrows money and promises fixed interest payments.

Elaboration: Stocks are equities with potential for capital appreciation, whereas bonds are fixed-income securities with priority over stocks in case of bankruptcy.

1. Define market capitalization.

Answer: The total market value of a company's outstanding shares, calculated as share price multiplied by total shares outstanding.

Elaboration: Market cap categorizes companies into large-cap, mid-cap, or small-cap, which can influence investment strategies.
